Elemental Motorsport is an online racing game featuring an arcade style of racing created by BlackBox Software. Developed for the GameCube, PlayStation 2 and Windows, the game also spawned a Game Boy Advance version. From the creators of the critically acclaimed Need for Speed: Hot Pursuit, BlackBox Software and Electronic Arts, comes a whole new street racing game that utilizes the classic tropes of arcade racing games and combines them with a new experience to create a unique racing game. Need for Speed: Hot Pursuit combines a racing game's real-time gameplay with the storytelling and tactics of the arcade racer. A brand new HD graphics engine and a brand new physics engine allow for unprecedented levels of detail and realism in a racing game. The game's new Super Car system will redefine the way players race, customize, upgrade, and more. [more info] Grab a copy of Need For Speed Hot Pursuit on Amazon.com! Need for Speed: Hot Pursuit features a hyper-detailed engine that represents the most accurate representation of real-world motorsports. The development team was given access to all the vehicles that have ever competed in a single world-renowned racing series. Need for Speed: Hot Pursuit's innovative physics engine brings these authentic vehicles to life in a brand new, totally unique racing game. Players will be able to drive in virtually any type of racing series or sport, all under the high-speed motion of a console-quality engine. Need for Speed: Hot Pursuit's groundbreaking Super Car technology will enable players to control their in-game vehicle in the most realistic way possible. The game's intuitive and easy-to-learn control system will include supercar handling and stability, a slick driving aids system, and power slide and burnout from the best supercars in the game. With a whole new racing game, we made sure that players would have the best-looking, smoothest, most realistic driving experience of any racing game in the market today.
